

PROGRAM OFFICER, HUMAN FACTORS (Industrial Engineer)

The Office of Naval Research is seeking a qualified individual to manage sponsored basic/applied research, and advanced development programs and projects in the broad area of human factors engineering. The sponsored efforts are conducted principally at U.S. universities and industry or Federal laboratories. This is a Federal Civil Service position at the GS-14/15 level (\$88,369 - \$135,136) depending on individual qualifications.

The position requires knowledge and experience in the fundamental theories, concepts, and current state-of-the-art research and/or technology development in the areas of human systems integration, human factors engineering, and industrial engineering including, but not limited to, human decision making, organizational design and architectures, models for human-computer interaction, including computational models of human cognitive processing.

For information on qualifications and how to apply, see the Job Announcements at our website "<http://www.onr.navy.mil/hr>".

Applications must be in the Human Resources Service Center - North East (Philadelphia) by close of business or postmarked as of the closing date noted in the job announcement. For technical information contact us at "hrdeptjobs@onr.navy.mil".

U.S. CITIZENSHIP REQUIRED • AN EQUAL OPPORTUNITY EMPLOYER
