

CRONE 2018

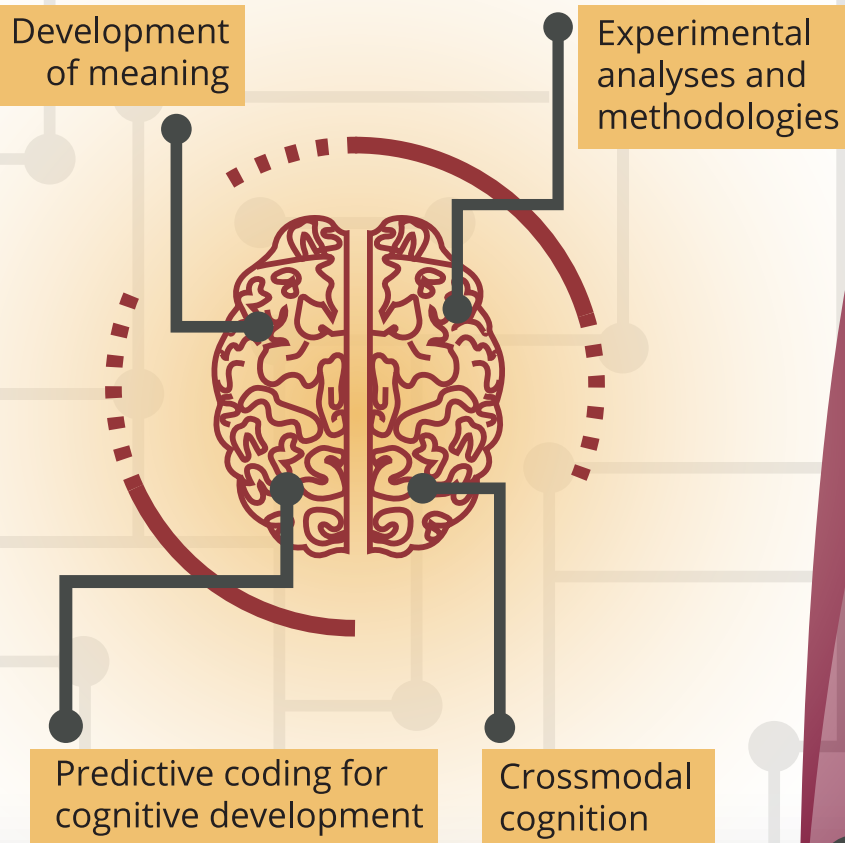

4th Congress on Robotics and Neuroscience

CALL FOR POSTERS

IMPORTANT DATES

Main Progra Areas

Submission Topics: (But not limited to)

Cognitive Sciences

- Language and action development
- Computational cognitive systems
- Cognitive neuroscience
- Augmented cognition
- Artificial perception

Computational Neuroscience

- Structural and Functional models for connectivity
- Novel physiological insights based on CN models
- Network analysis
- Neural coding
- Plasticity

Representation Learning for Human and Robots

- Knowledge representation and reasoning
- Human Behaviour Modeling
- Neurosymbolic computing
- Crossmodal learning
- Affordances

Robotics and Artificial Intelligence
