

GCNU/SWC Research Fellow In Neuroscience

The [Gatsby Computational Neuroscience Unit \(GCNU\)](#) and [Sainsbury Wellcome Centre \(SWC\)](#) are offering a unique joint Fellowship opportunity for innovative and creative researchers seeking to build independence and who wish to work at the interface of theoretical and experimental neuroscience.

Who we are looking for

You'll have a PhD in neuroscience or a related field and a strong background in systems neuroscience and/or computational neuroscience. You will have an innovative research proposal that bridges theoretical and experimental neuroscience, and have experience planning and delivering your own projects.

What we offer

Funding for 3 years with a possibility of a 2-year extension. Funding covers your salary, and a generous allowance for travel and research expenses. Equipment costs will be considered.

CLOSING DATE: 6TH January 2020
