About Cairo

Cairo is the capital of Egypt. It is also the largest and most populous city in Africa and the Arab world. Cairo has long been a center of the region's political and cultural life, and is titled "the city of a thousand minarets" for its preponderance of Islamic architecture. Cairo has had a thriving tourist industry since the middle of the 19th century, and has always been attracting travelers for it has a lot of things to do for holidays, thus it's a convenient departure point for tours, and offers many sites to visit.
