OPEN ACCESS

The **XAI4Sci: Explainable machine learning for sciences** workshop has partnered with the Institute of Physics Publishing journal *Machine Learning: Science and Technology (MLST)* to publish a focus issue on **Explainable machine learning in sciences**.
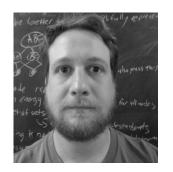

The focus issue will look to publish a selection of papers at the interface of science and machine learning, focusing on tackling the unique and pressing needs for explainable machine learning models in support of science and scientific discovery.

Submission site open: **Monday, 1st April 2024**
